

ROSHAN B NAIR

SOFTWARE DEVELOPER

Ernakulam, Kochi, Kerala | 9847767171 | roshanbn20@gmail.com | [LinkedIn](#)

PROFILE SUMMARY

Frontend Developer with 2 years of experience and full-stack exposure, specializing in ReactJS and modern JavaScript (ES6+). Skilled in building responsive, high-performance web applications using HTML5, CSS3, Redux, REST APIs, with hands-on backend development using Node.js, Express, and databases. Passionate about clean code, scalable architecture, performance optimization, and continuous learning.

TECHNICAL SKILLS

ReactJS	HTML5, CSS3, SCSS	JavaScript (ES6+)
Manage Database (Mongo DB)	Material-UI/Tailwind CSS	Node Express Basics
Component-based Architecture	Git Workflows	Python Basics

PROFESSIONAL EXPERIENCE

Software Developer - Ahydratech Ltd.	Sept 2023 - June 2026
- Developed dynamic and responsive web applications using ReactJS, JavaScript, HTML, and CSS. Integrated RESTful APIs to fetch and render data efficiently in frontend views. - Collaborated closely with UI/UX designers to deliver seamless and user-friendly interfaces. - Ensured responsiveness and consistent design implementation using modern CSS techniques. Utilized GitHub for version control and collaborative development. - Debugged and resolved frontend issues to improve application performance and user experience. Experience with Node.js, Express.js, and MongoDB.	
MEA(R)N Full Stack Developer Intern - Luminar Technolab	Jan 2023 - Aug 2023
- Assisted in developing full-stack applications using ReactJS, Node.js, and Express.js. - Worked on implementing responsive UI with HTML5, CSS3, SCSS, and Tailwind CSS. - Contributed to API integration between frontend and backend using RESTful APIs. - Gained experience with MongoDB for data storage and management. - Collaborated with the design team to implement UI/UX designs and improve user experience. - Used GitHub for version control and participated in collaborative coding efforts.	
Supervisor - Timken India Ltd.	Aug 2020 - Dec 2022
- Supervised the assembly and testing of bearings, overseeing a team of workers and ensuring efficient operations across different machines. - Ensured quality control and smooth production flow by closely monitoring each stage of the manufacturing process. - Played a key role in optimizing operational efficiency and meeting production targets by thoroughly understanding and managing each task in the assembly line.	
Engineer - Dharti Dredging and Infrastructures Ltd.	Oct 2018 - Feb 2020
- Managed worker teams and optimized workflows in the dredging process to maximize output. - Performed mechanical and manufacturing precision calculations to ensure timely project completion. - Utilized CAD to design maintenance work and improve operational efficiency.	

EDUCATION

B.Tech in Mechanical Engineering

St.Joseph's College of Engineering and Technology

Aug 2014 - July 2018

HSC

Kendriya Vidyalaya Ernakulam

Mar 2013 - Apr 2014

PROJECTS

IdealInsight AI

Technology Used - MERN Stack - Mongo DB, Express JS, React JS, Node JS

- Built a polished React + Vite frontend with smooth, responsive UI/UX.
- Implemented Redux Toolkit for auth, idea management, and JWT persistence.
- Designed interactive pages for idea submission, GPT feedback, and PDF insights.
- Added dynamic rendering for seamless, real-time-like updates without reloads.

Immaculate - Nail Spa

Technology Used - ReactJS

- Developed website

[Click here to visit the site](#)

Saywalimo - Rent a car site

Technology Used - ReactJS, MongoDB, Express JS, Node JS

- Developed booking functionalities for a car rental service.
- Integrated a map location indicator for pickup/drop-off.
- Worked on enhancing user interaction within the booking flow while maintaining consistency with the existing homepage.
